- Next-auth

BackEnd

Good knowledge in these backEnd skills

- MongoDB
- mongoose
- Prisma
- SQL
- Sanity
- API

EDUCATION

Cairo University ,
Bachelor's degree of computerscience
2020 - current

Throughout my academic journey, I have acquired a comprehensive understanding of various programming fundamentals, including essential concepts, object-oriented programming (OOP), SOLID principles, design patterns, algorithms, data structures, databases, and data warehousing. These foundational skills have equipped me with a solid understanding of the core principles and best practices in the field of computer science.

LANGUAGES

Arabic

English

PROFILE

My name is Ahmed Mohamed, and I'm a 21-year-old student studying computer science at Cairo University, specializing in Information Systems. I'm currently in my fourth year of studies. I reside in Cairo, Egypt.

I'm deeply passionate about creating exceptional websites and apps using Next.js and React. With extensive experience in the field, I possess a confident mastery of Framer Motion, enabling me to craft professional and visually stunning user experiences.

EXPERIENCE

Front-End Developer Freelancer

Upwork

2023/8/30 - present

- I'm now a Front-End developer working as a freelancer on Upwork. My stack includes React, Next.js, TypeScript, Tailwind, and,framer-motion. I'm open to full-time opportunities.
- "Ahmed is a top-notch developer, he understands quickly requirements and delivers products according to the planning we agreed on. We will rework together" - JECIRO ★★★★★ (WHAT MY CLIENTS ARE SAYING ABOUT ME)
